DETAILED ACTION

Election/Restriction

The examiner states for clarity of the record that applicant's amendment adds new claims 15-17. The election/restriction requirement is therefore expanded to include these new claims.

Claim Objections Maintained

The objection to claims 12 and 13 under 37 CFR 1.75(c) as being improper because a multiple dependent claim must depend from a preceding claims in the alternate only is maintained. See MPEP 608.01(n). Applicant states that a preliminary amendment had corrected this dependency. The examiner respectfully points out that there is no claim set presently of record in the application that shows such a correction. In the 12/23/2005 preliminary amendment (which adds the claims 12-14), claims 12 and 13 are improperly multiply dependent.

112 Rejections Withdrawn

The rejection of claims 3 and 11-13 under 35 USC 112, second paragraph, outlined in the previous Office Action, has been overcome by applicant's amendment. With respect to claims 3 and 11, the amendment clarifies the claims as appropriate. With respect to the remaining claims, the rejection is moot.

Allowable Subject Matter

The subject matter of claim 8 (the elected species) remains free of the prior art. The claim is objected to, however, as being dependent upon a rejected base claim (vide *infra*).

Applicant having overcome the outstanding rejection, the search was therefore expanded as called for under current Office Markush examination practice, a compound-by-compound search, to include a single additional compound. That compound is defined when: $R=R_1=H$; $R_2=\text{carboxy}$; $A=C_2$ alkylene; X is a single bond; and $Y=\text{acyloxy}$. A rejection follows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 and 9-17, in so far as they read on the species cited above, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by *J. Chem. Soc.* (1952), p. 137-141 (CAPLUS abstract). The reference teaches applicant's compound: RN=879123-37-2.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
